

# P-CASE SPRING

A SAFE BOX FOR YOUR LAPTOP – UP TO 19"

**Frictioned lowering of the front flap, lock with 2 keys with single coding**

Putting one's goods in a safe place is a priority for everybody, especially when these goods are easy to steal or to damage.

In order to satisfy this need, Ligra has created P-CASE SPRING, a "safety box" where the class laptop (up to 19"), the mouse, the keyboard, the graphic tablet and the cables could easily be housed after the lesson: thanks to its sturdy steel structure and its lock, P-CASE SPRING guarantees the top reliability in a small size.

Placed by the Interactive Whiteboard, P-CASE PREMIUM is its natural accessory, since it keeps safe and always available the basic tool of every multimedial lesson.
