

HELGI CLICK TO SHOW

FIVE GOOD REASONS TO CHOOSE IT

Instant sharing at the push of a button

With HELGI Click To Show, there's no software, no setup, and zero hassle: just plug in the dongle and press one button to start sharing. The perfect plug & play solution for today's meeting rooms.

Full compatibility with Windows and macOS

HELGI Click To Show works seamlessly with all major operating systems, removing the hassle of adapters and mismatched formats.

Stable high-quality audio and video transmission

Enjoy smooth streaming, low latency, and support for up to 4K at 30 fps — perfect for professional presentations, multimedia content, and more.

Bidirectional control from touch display

With HELGI Click To Show, you can control your laptop directly from the room's touch monitor, making sessions smoother and more interactive.

Compact, lightweight, and functional design

Weighing less than 100 grams, HELGI Click To Show is ideal for use with mobile monitor setups on trolleys.
