

HELGI PTZ EYE ONE

SEVEN GOOD REASONS TO CHOOSE IT

Professional FULL-HD video quality

HELGI EYE ONE is equipped with a 1/2.7" Exmor sensor with a resolution of up to 1080p a 60 fps, delivering sharp and realistic images.

10x Optical zoom with wide-angle capture

HELGI EYE ONE features an optical zoom of up to 10x and a 72° horizontal field of view, making it ideal for various usage scenarios such as meeting rooms, classrooms, churches, theaters and auditoriums.

Smooth streaming and low latency

HELGI EYE ONE supports the H.265 / H.264 / MJPEG video codecs, ensuring an excellent balance between quality and file size, as well as compatibility with major platforms such as Zoom, Microsoft Teams, OBS, etc.

Multiple simultaneous outputs

HELGI EYE ONE supports simultaneous video output through multiple ports: HDMI, USB, IP, making it extremely versatile also for live streaming.

Power over Ethernet (PoE)

HELGI EYE ONE supports PoE technology, which allows data and electrical power to be transmitted simultaneously through a single Ethernet cable, simplifying device installation.

Movement and versatility

With its 255 presets, HELGI EYE ONE offers fast and efficient shot management, thanks to the included remote control. The PTZ movement is smooth and silent.

Easy and complete installation

Inside the HELGI EYE ONE package, a wall mount bracket is included.
