HLGOMUV36BW2

OmniChart **UV 36**

85 x 65 x 123 cm

3 Years
Warranty

Product compatible

With all rechargeable devices

Up to 24 VR Headsets - Headphones - Accessories

Structure

Entirely metal structure with natural air circulation, 4 swivel casters equipped with brakes and two plastic side handles for easily moving the cart where needed.

Front compartment for device storage equipped with a security lock and double retractable doors integrated into the unit's body.

Upper compartment with security lock and servo-assisted opening/closing system with double gas piston.

Rear compartment for housing power supplies equipped with double door and security lock.

OPTIONAL

Predisposition for Cooling fans

COD. HLGFAN

Power and Charging

Rear compartment not accessible from the front and upper compartments, equipped with cable pass-through holes for connecting devices to power supply.

Equipped with four strips of 9 sockets each and compartment for transformers placement.

Control unit for simultaneous power timing on all sockets or sequentially timed to prevent overloads.

Single 5m power cable integrated into the power control unit.

Storage and Compatibility

Three fixed shelves with 12 plastic dividers equipped with integrated cable management for housing devices in an upright position.

Sterilizer with 3 UV lamps (one per section) automatically controlled with the front compartment closed.
Sterilization cycle duration: 30 minutes.

Removable dividers as per instruction below. This allows the cart to accommodate the charging of various types of devices, including accessories such as VR headsets and headphones (for example).

Eliminates up to 99.9% of bacteria, viruses, and fungi with three UV lamps

Avoids using chemicals, preventing toxic residues on devices

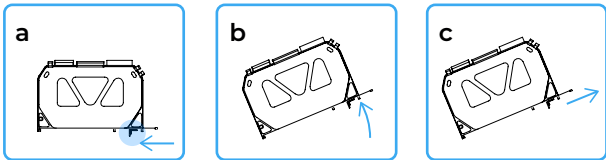

Fast sterilization cycles with a programmable timer

Product compatible

With all rechargeable devices

In three single steps, the dividers can be removed to adapt the Omnichart 36 charging cart to every need.
